TOTAL AWARDS						\$637,000.00

SOURCE OF FUNDS SUPPORTING GRANT:	
FUND	DESCRIPTION
392	Federal Public Health Programs

OVERALL ACTIVITIES COVERED BY FUNDS SOURCE:

Maintain a lead poisoning prevention surveillance system to include all blood lead tests, case management services, and environmental follow-up in the applicant's jurisdiction.

Identify all properties with lead hazards that are contributing in whole or in part to a child's lead poisoning and eliminate them as vehicles for childhood lead poisoning by initiating remediation activities.

Identify other properties in select areas of the state with lead hazards and eliminate them as vehicles for childhood lead poisoning by initiating remediation activities.

Prevent lead poisoning in children from birth through age 5 years through educational activities to families and health care professionals.

Ensure that children at risk for lead poisoning receive a blood lead test(s) and appropriate follow-up and ensure that confirmed cases of children with lead poisoning receive case management services.

Develop and reinforce strategic partnerships with key stakeholders by maintaining current relationships and soliciting additional involvement, including enforcement agencies.

An evaluation plan must be included with the application. The evaluation plan must include:
 Measures that evaluate the objectives and activities of the annual work plan; The name or, if person has not been hired, position (include job description) responsible for conducting the evaluation; Evaluation frequency (at least quarterly); and How the results will be used to improve the program.

REVIEW CRITERIA USED FOR SELECTION:

Applications were reviewed for completeness by the OCLPPP staff. All Applicants must meet submission requirements.

An independent objective review panel was appointed by ODH to evaluate complete and responsive applications according to the criteria listed in the "Section S - Review Criteria" section of the FY 09 RFP. The review of each application is conducted by a primary and secondary reviewer. The review of the application is intended to be advisory and not to replace the authority of the Ohio Department of Health to decide whether a grant shall be awarded.

In addition, the following factors may affect the funding decision:

- Maintaining geographic diversity.
- Preference to jurisdictions with high numbers of children under the age of 6 years with elevated blood lead levels.
- Preference to applicants that demonstrate commitment through substantial in-kind contributions, as well as clear, active collaboration with other agencies, including environmental quality authorities and housing agencies engaged in childhood lead poisoning prevention.
- Preference to those applicants that demonstrate detailed significant (i.e., > 50% of the funds requested in this application) in-kind contributions.

APPLICANTS DENIED:						
COUNTY	CITY	PROJECT	AGENCY NAME	AMOUNT	ADJUSTMENT	AWARDED

REMARKS:

For this continuation grant only agencies currently funded under the Ohio Childhood Lead Poisoning Prevention Program are eligible to apply. Eligible applicants are: Clark County Combined Health District, Cleveland Department of Public Health, Cuyahoga County Health District, Mahoning County General Health District, and Lucas County Regional Health District. The applicant must have demonstrated acceptable performance standards during the previous grant period.

Applicants were required to submit an evaluation plan demonstrating the accomplishment of the various identified objectives of the cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the "Application Summary and Guidance" section of the FY 09 RFP. Measures must be objective and quantitative and must measure the intended outcome. The measures of effectiveness must be submitted with the application as an element of evaluation.

A review group appointed by ODH evaluated each application included the following; Christopher Alexander, Gina Gerbasi, Katherine Graham, Kelly Harris, and Melody Sexton. Their review was followed up for internal quality and included John Belt, and Deborah Beck Candow.
