OVERALL ACTIVITIES COVERED BY FUNDS SOURCE:

Ryan White consortia are mandated by the federal government to plan for services in their areas for people living with HIV. The services are then to be evaluated as well as the functioning of the consortium as an entity. Consortia are to participate with ODH in the needs assessment activity for the state, develop a service delivery plan for their area and have an evaluation of their consortium conducted. They also need to encourage appropriate individuals and entities to sit on the consortium in order to assist with the elimination of barriers that may prevent those who should be represented from getting to the Consortium Meeting and those in need of obtaining services.
