OVERALL ACTIVITIES COVERED BY FUNDS SOURCE:

The main emphasis of this RFP is reducing the use of tobacco by youth, low SES populations, pregnant women, and others who may be disproportionately affected. The 2006 Ohio Adult Tobacco Survey shows that 22.3 percent of adults in Ohio currently smoke cigarettes compared to the U.S. rate of 19.7 percent. More than 80 percent of these smokers smoke daily and smoke less than a pack a day. Roughly 60 percent of these smokers have attempted to quit at least once over the past year, and only 18 percent of them were successful. Nearly 60 percent of Ohio adult smokers with children smoke in the home.
