Subject: Recall Announcement (ODA/ODH) 2002-06

Date: February 22, 2002

Dean Foods Issues Dairy Recall because of Potential Pesticide Residues

Dean Foods issued a recall of white milk - all sizes and percentages and Small Curd Cottage Cheese because of potential pesticide residues.

The products affected by this recall were sold during the week of February 11, 2002 with the plant code of 18-1019 and sell by dates of 2-27 2002, 2-28-2002, and 3-1-2002.

The specific list of recalled dairy products is attached.

Some of the affected products were distributed to stores in Ohio.

The recall is due to possible accidental contamination that occurred at the Hoosier Milk Co-Op in Indiana. Information obtained thus far indicates that there is minimal risk to human health from these products.

If you have purchased milk or cottage cheese that are affected by this recall return it to your local store for a full refund.

If you have any questions concerning this recall please contact Dean Foods at 1-800-395-7004.
