

Ohio Department of Health
Application for Self Referral Screening Utilizing Radiation Generating Equipment
Rule 3701: 1-66-17 (A) of the Ohio Administrative Code

A. Facility Identification

Name	
Ohio Radiation Source Handler Registration No.	HCF License No. (If applicable)
Address (Location where screening is conducted)	

B. Proposed Screening Type

Description of Disease or Condition

C. Population to be Examined

Age	Sex
Physical Condition	
Other	

D. Provide evaluation of known alternative screening not involving ionizing radiation that could achieve the goals of the proposed screening program. Indicate why these methods are not used in preference to an x-ray examination.

E. Provide a description of your X-ray Quality Assurance Program with specific reference to image quality control:

F. Provide a description of the procedure used to notify the individual screened and their physician of the results of the screening procedure, and any recommendations made by the screening facility or interpreting physicians:

G. Provide a description of the retention and or disposition of the radiographs, the accompanying reports, and any other record pertaining to the screening procedure:

H. Name and Qualification of the Physician Proposing the Screening Program:

Physician Name: _____ Ohio License No.: _____ Exp. Date: _____

Attestation: I, _____ the physician responsible for the oversight of this screening program, hereby attest to the following: only individuals holding an appropriate and current Ohio radiologic license shall operate radiation-generating equipment; all physicians interpreting x-ray studies shall hold a current Ohio medical license; and for mammography screening programs, only physicians trained in accordance with the current FDA regulations shall interpret mammograms.

Signed: _____ Date: _____
