

Performance Measure 07:

Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.

Current Activities

A. Monitor immunization data from DFCHS funded programs.

This infrastructure-level strategy is being accomplished by analyzing data, including trends, from the CFHS program utilizing the MATCH data collection system.

B. Promote the use of the statewide immunization registry by DFCHS funded program

This infrastructure-level strategy is being accomplished through the following activities:

1. Monitor those CFHS subgrantees providing child health services;
2. Work with the Rural Health Program to promote provider awareness at the annual Rural Health Conference;
3. Monitor immunization status by HMG service providers upon program entry and exit with referral/care coordination.

C. Collaborate and coordinate culturally competent immunization planning and programming efforts with national, state and local health programs

This infrastructure-level strategy is being accomplished through the following activities:

1. Collaborate with the ODJFS Immunization Advisory Group and other stakeholder groups;
2. Collect immunization data on initial WIC certification and subsequent recertification visits (every 6 months) with referral and consistent education for immunizations
