

Long Term Care Facility Enforcement Report

This is a year-to-date enforcement report for Medicare and/or Medicaid certified long-term care facilities reporting the status of actions initiated. This report includes remedies recently proposed as well as those that have been actually imposed by the Director of Health and/or the federal Centers for Medicare & Medicaid Services. The purpose of the report is to answer the many public information requests that we receive regarding facilities that face or have faced enforcement actions for non-compliance with certification standards. If you would like information (an update) regarding the status of facilities for which enforcement action was previously initiated, but not included in the reports, please contact the Bureau of Regulatory Compliance at (614) 644-6220.

The information provided by this report includes the name and address of the facility, the type of certification, the number of beds, the number(s) of deficiencies (cites) the type(s) of action proposed, the current status, and a final disposition if the action has been completed or compliance achieved (see list of abbreviations below). Additionally, if a hearing has been scheduled, the date for the hearing is noted. If you are interested in attending a hearing, please call the Bureau of Regulatory Compliance the day prior to the scheduled date to be certain that it has not been rescheduled and to learn the location.
