**Q20:** During the past 12 months, how many times were you in a physical fight in which you were injured and had to be treated by a doctor or a nurse?

**In 2005, few students reported having been treated by a doctor or a nurse for an injury resulting from a physical fight.**

- 2.9 percent of students reported having to be treated by a doctor or a nurse due to an injury from a physical fight one or more times during the past 12 months.
- There was no significant difference in treatment of injuries due to a physical fight between gender or grade level.

**There were no significant differences in being treated by a doctor or a nurse due to an injury obtained in a physical fight between 1999 and 2005.**
