

## Q86: During the past 7 days, how many meals did you eat at home with your family?

In 2005, more than 50 percent of students reported that they eat four or more meals with their family.

- 56.3 percent of students reported eating breakfast every day.
- Significantly more students in the ninth grade (66.8 percent) ate four or more meals with their family than students in the 11<sup>th</sup> (52.3 percent) or 12<sup>th</sup> (45.9 percent) grades. Significantly more students in the 10<sup>th</sup> grade (58.9 percent) ate four or more meals with their family than students in the 12<sup>th</sup> grade.
- There was no significant difference in the percentage of students who eat four or more meals with their family by gender or race.

This question was not asked in 1999 or 2003.
