FUND	DESCRIPTION
4F9	Sickel Cell Disease Control

OVERALL ACTIVITIES COVERED BY FUNDS SOURCE:

Activities under the Direct Service Initiative ensure and enhance the availability and accessibility of quality, comprehensive services to newborns, children and adults identified with or at-risk for sickle cell disease, sickle cell trait and related hemoglobin disorders.

For SFY 2008, these activities will be accomplished through the following goals: 1) Promote the early identification of children and adults with sickle cell disease and related hemoglobin disorders and facilitate their integration into systems of service and care (which include treatment interventions) that are accessible, continuous, comprehensive, family-centered, coordinated and culturally sensitive; 2) Increase the awareness, knowledge and skill level of Ohio's health care professionals and providers about the special health care needs and services related to sickle cell disease and other hemoglobin disorders through the promoted use of education, training and outreach and 3) Expand public and community awareness and access to information on sickle cell disorders and related programs/services with special emphasis on meeting the needs and culture of unserved and/or under-served at-risk population groups.

Applicant must support and address these stated goals of the Direct Service Initiative.
