OVERALL ACTIVITIES COVERED BY FUNDS SOURCE:

INITIATIVE 1: Expand the implementation of the statewide patient tracking system to response partners statewide (i.e. EMS) through training and technical assistance.

INITIATIVE 2: Development of a communication plan which defines the process and methods for the provision of situational awareness during disasters that is coordinated through Ohio's hospitals, regional hospital associations, the Ohio Emergency Operations Center, and the Ohio Department of Health.

INITIATIVE 3: Development of a medical control plan that defines medical control for the state and would provide a template for implementation at the local and regional level for coordination with the local and state EOC. The plan must include recommendations for the control of patient movement and resources during a disaster within a tiered framework. The plan must be developed through the use of focus groups consisting of stakeholders from across various disciplines involved in coordinating preparedness and response efforts at the regional and state level.

INITIATIVE 4: Maintain system administration of the statewide "PrepareOhio.com" healthcare disaster preparedness website.

INITIATIVE 5: Continue building partnerships between OHA, ODH and other state agencies to enhance the position of Ohio hospitals and ensure inclusion of hospital response in statewide decision, plans and processes.

INITIATIVE 6: Maintain system administration of the designated statewide bed tracking system, Surgenet, to ensure continued compliance with the most current HAvBED standard and system compatibility.

INITIATIVE 7: Further development and implementation of the resource tool and permission system component of the statewide OHTrac system into each of Ohio's seven Homeland Security regions.
