SOURCE OF FUNDS SUPPORTING GRANT:	
FUND	DESCRIPTION
3920	Federal Public Health Programs

OVERALL ACTIVITIES COVERED BY FUNDS SOURCE:

Funding will be used for the purpose of improving surveillance, and prevention and control of tuberculosis, which will enhance the Ohio Department of Health's mission to protect and improve the health of all Ohioans. Activities will help identify and appropriately treat all persons with active TB, provide appropriate follow-up to all their contacts, and provide targeted testing to persons at high risk for developing TB thereby working toward a TB case rate of 1/1,000,000.

REVIEW CRITERIA USED FOR SELECTION:

All applications submitted for consideration were reviewed by the TB Controller and the CDC, TB Senior Public Health Advisor assigned to Ohio. Activities must be consistent with the goal of TB elimination, as specified in the CDC ODH TB Cooperative Agreement. Subgrantees are required to provide a brief report addressing the following elements of each objective or activity.

- A. Status (met, ongoing, unmet)
- B. Major findings, significance of those findings (a description of how the findings impact or contribute to the public health goal of promoting health and quality of live by preventing, controlling, and eventually eliminating tuberculosis from the United States.
- C. Barriers encountered, and how the barriers were addressed.
- D. In applicable, include the reasons that goals were not met and a discussion of assistance needed to resolve the situation.

COUNTY	CITY	PROJECT	AGENCY NAME	AMOUNT	ADJUSTMENT	AWARDED
--------	------	---------	-------------	--------	------------	---------

REMARKS:
Awards are adjusted slightly for current morbidity and anticipated work load for TB outreach activities in the upcoming year. Cases reported by Cuyahoga, Lucas and Montgomery Counties in 2009 and the first part of 2010 were relatively stable when compared to previous years. Franklin County saw a decline of reported TB cases, and anticipates the continued decline in new refugees in 2011. Hamilton County saw an increase in the number of reported cases, and transmission continues to occur among the homeless, African American male population associated with outbreak OH066, PCR type 00021.
