What is Ohio ImpactSIIS?

ImpactSIIS is an online tool that keeps track of immunizations and health information for Ohio residents.

- Provides reminders for vaccination dates
- Provides immunization, testing and screening information for schools
- Keeps medical information available even if you move

Ask your doctor today about ImpactSIIS or contact the Ohio Department of Health.

What is ImpactSIIS?

ImpactSIIS Can Help

It is an online statewide secure system that keeps track of adult and childhood immunizations and health information for Ohio residents.

Your child's records are protected and can only be accessed by authorized users with restricted access.

Is it just for immunizations?

No, ImpactSIIS provides data for the following:

- Immunizations
- Body Mass Index
- Hearing
- Lead
- Tuberculosis
- Vision

Who are the Authorized users?

- Schools
- Local Health Departments
- Doctor's Office
- WIC

Is everyone using ImpactSIIS?

No, not everyone. ImpactSIIS is used by health care providers, school/Head Start nurses, WIC staff, and managed care organizations (MCOs). Ask your doctor, school nurse or health department if they are using ImpactSIIS.

ImpactSIIS saves your information — even if you move.

- Records can be accessed by authorized users via ImpactSIIS's secure, Web-based system, no matter where you are.
- Be sure to ask your doctor, clinic, or health department if they are participating in ImpactSIIS.

Your participation in ImpactSIIS is encouraged, but not required.

Unless you request otherwise, participating providers will enter immunizations, BMI data, lead testing, vision, hearing, and TB screening results into ImpactSIIS. If you do not want these records included in the system, tell your provider or health department. They can provide you with a form to have your records removed from the system.

If you have questions about ImpactSIIS, talk to your doctor or contact the Ohio Department of Health at 1-866-349-0002 or (614) 466-4643 or impact@odh.ohio.gov.
