

Invitation to Participate in a Maternal and Child Health Community Forum

Ohio Department of Health's (ODH) Division of Family and Community Health Services (DFCHS) invites you to join us to discuss the future of maternal and child health in the state of Ohio. This Community Forum is designed to gather your perspectives as it relates to the ODH's Maternal and Child Health (MCH) 2015 Needs Assessment process. Specifically, participants will help ODH prioritize future needs related to:

- Preventive and primary care services for pregnant women, mothers and infants;
- Preventive and primary care services for children and youth; and
- Services for children with special health care needs.

The information and perspectives you provide at the forums will guide the Department's MCH funding priority setting for the five years beginning in October, 2015 so your participation is very important. We will be holding ten forums across the state. The one closest to you will be held:

Region 10 Community Forum
August 7, 2014
2:00 PM to 5:00 PM
Hocking County Board of Developmental Disabilities
