

APPENDIX C

RADIATION-GENERATING EQUIPMENT INSPECTION FEES

Each hospital having one to ten x-ray tubes	\$960.00
Each hospital having eleven to twenty-five x-ray tubes	\$1,800.00
Each hospital having more than twenty-five x-ray tubes	\$2,640.00
Each cabinet, gauging, or analytical x-ray tube used in non-health care applications	\$120.00
Each x-ray tube other than cabinet, gauging, or analytical x-ray tubes used in non-health care applications	\$240.00
Each unit of ionizing radiation-generating equipment capable of operating at or above 250 kilovoltage peak	\$610.00
Each assembler-maintainer inspection consisting of an inspection of records and operating procedures of handlers that install or maintain radiation-generating equipment	\$380.00
Each facility that is not registered and for which no registration application is pending at the time of inspection.	\$474.00 plus the fee applicable under this rule.
A review of shielding plans or the adequacy of shielding for each room where radiation-generating equipment is used.	\$762.00
