**August 28th, 2014**

**Home Visitor Supervisor Day – Thursday September 4<sup>th</sup>, 2014**

The Help Me Grow Home Visiting Team is pleased and excited to host our first learning day devoted to supervisors.

The session will be Thursday 9/4/2014 in Columbus at: Franklin County Children's Services 855 W. Mound Street. The day will start at 9:30 and end by 4:00, time for lunch on your own will be part of the agenda.

Attendance at the Supervisor's day is required for at least one HV supervisor at each contracted agency. If a direct HV supervisor is unable to attend, the next senior supervisor, contract manager, or agency leadership must attend. Representation by at least one person in a HV supervisory and/or leadership role at each agency is expected.

If you have not yet done so, please register for attending at:  
<https://www.surveymonkey.com/s/PFLNDV6>

**Regional Meetings Start in September**

September 17	Ross County	Ross County Health District
September 24	Butler County	Butler County ESC
October 1	Franklin County	State Library
October 2	Montgomery County	Dayton Jobs Center
October 9	Guernsey County	Guernsey County BODD
October 15	Summit County	Main Library
October 16	Cuyahoga County	Parma Library
October 21	Putnam County	Putnam County ESC
October 23	Holmes County	Holmes County Training Center

**Attendance is required for: Contract Manager, Supervisor (at least one), and Home Visitor (at least one).**

Online registration will be set up soon.

## SEPTEMBER IS INFANT MORTALITY AWARENESS MONTH

Many Ohioans are just now beginning to learn that we are near the bottom among the states in terms of babies, and especially African-American babies, dying before their first birthday. Our fellow citizens are also beginning to learn some of the reasons why this sad situation exists as well as what can be done to turn it around. Despite many long-running local and statewide efforts, the status quo is not working catch us up to other states and the nation. *Things must change.* Raising awareness to a much higher and broader level is essential for needed changes to take place.

**National Infant Mortality Awareness Month** is a great opportunity to reinforce the message and make sure folks in every part of Ohio begin to think about and *do something about* improving the health of our women and babies by making positive changes in their own communities.

### WHAT YOU CAN DO

- Work with your employer, local hospital, health department, community health clinic, club, civic organization, church, or temple to sponsor and organize an event focusing attention on infant mortality.
- Talk to women you know of child-bearing age about reproductive health planning, good nutrition/folic acid/weight control, smoking cessation, and safe-sleep practices for babies.
- Support breastfeeding, the best way to feed babies which is also good for the health of mothers.
- Support your local hospitals, health department, and medical providers in efforts to educate women about having healthy babies.
- Contact your local media and government officials with information about National Infant Mortality Awareness Month.
- Plan on attending and spread the word about the **Dec. 3-4 Infant Mortality Summit** in Columbus (details coming soon).
