

DEFINITION OF ONE MONTH

Ohio Department of Health's Definition of One Month

The Immunization Program of the Ohio Department of Health defines one month as 28 – 31 days for purposes relating to immunization.

For the purpose of calculating acceptable intervals between **vaccine** doses, **28 days as 1 month**, may be utilized for **4 months or less**. **Over 4 months** should be from **calendar date to calendar date**. For example, 5 months = January 8th to June 8th.
