

## COUNTY

Description:	Name of the county
Allowable Values:	County can be entered as a 10 digit -full-name-text or by the county code (FIPS and County codes are valid for data entry).  For data storage, only FIPS codes are allowed.
Length:	10 for display. <b>This is optional.</b> 3 for storage
Format:	AN
Notes:	Data entry screens can include any of the three options, full text, FIPS or other county code. However, the variable named 'County' will only contained the equivalent FIPS code.  <b>Note for programmers:</b> The FIPS code will be calculated using City, County and State. See <a href="http://www.itl.nist.gov/fipspubs/">http://www.itl.nist.gov/fipspubs/</a> or <a href="http://www.epa.gov/enviro/html/codes/oh.html">http://www.epa.gov/enviro/html/codes/oh.html</a>
External Standard:	CIPHER and North American Association of Central Cancer Registries (NAACCR)
