 - A summary of the services to be provided or activities to be conducted; and,
 - A plan to coordinate and share information with appropriate local health districts.

The applicant must submit the above summary as part of their grant application to ODH. This will document that a written summary of the proposed activities was provided to the local health districts with a request for their support and/or comment about the activities as they relate to the Local Health Districts Improvement Standards **(Required for competitive cycle only; not required for continuation cycle, if unchanged)**.

2. *Public Health Impact Statement of Support* - Include with the grant application a statement of support from the local health districts, if available. If a statement of support from the local health districts is not obtained, indicate that when the program summary is submitted with the grant application. M. Statement of Intent to Pursue Health Equity Strategies

The ODH is committed to the elimination of health inequities. All applicant agencies must submit a statement which outlines the intent of this application to address health disparities. This statement should not exceed 1 ½ pages and must: (1) explain the extent in which health disparities are manifested within the health status (e.g., morbidity and/or mortality) or health system (e.g., accessibility, availability, affordability, appropriateness of health services) focus of this application; (2) identify specific group(s) who experience a disproportionate burden for the disease or health condition addressed by this application; and (3) identify specific social and environmental conditions which lead to health disparities (social determinants). This statement must be supported by data. The following section will provide a basic framework and links to information to understand health equity concepts. This information will also help in the preparation of this statement as well as respond to other portions of this application. **(Required for competitive cycle only; not required for continuation cycle, if unchanged)**

- *Basic Health Equity Concepts:*
Certain groups in Ohio experience a disproportionate burden with regard to the

incidence, prevalence and mortality of certain diseases or health conditions. These are commonly referred to as ***health disparities***. Health disparities are not mutually exclusive to one disease or health condition and are measurable through the use of various public health data. Most health disparities affect groups marginalized because of socioeconomic status, race/ethnicity, sexual orientation, gender, disability status, geographic location or some combination of these factors. People in such groups also tend to have less access to resources like healthy food, good housing, good education, safe neighborhoods, freedom from racism and other forms of discrimination. These are referred to as ***social determinants***. Social determinants are necessary to support optimal health. The systematic and unjust distribution of social determinants among these groups is referred to as ***health inequities***. As long as health inequities persist, marginalized groups will not achieve their best possible health. The ability of marginalized groups to achieve optimal health (like those with access to social determinants) is referred to as ***health equity***. Public health interventions that incorporate social determinants into the planning and implementation of programs will contribute to the elimination of health disparities. For more resources on health equity, please visit the ODH website at:

<http://www.healthyohioprogram.org/healthequity/equity.aspx>.

- N. Appropriation Contingency:** Any award made through this program is contingent upon the availability of funds for this purpose. **In view of this, the subgrantee agency must be prepared to cover the costs of operating the program in the event of a delay in grant payments.**
- O. Programmatic, Technical Assistance and Authorization for Internet Submission:** Initial authorization for Internet submission will be distributed at your GMIS 2.0 Training Session (new agencies). All other agencies will receive their authorization upon submission of the Notice of Intent to Apply for Funding (NOIAF). Please contact **Dyane Gogan Turner** at 614.644.6560 or e-mail at Dyane.GoganTurner@odh.ohio.gov for questions regarding this RFP.
- For competitive RFPs ONLY: Applicant must attend or must document, in writing, prior attendance at GMIS 2.0 training in order to receive authorization for Internet submission.
- P. Acknowledgment:** An ‘Application Submitted’ status will appear in GMIS 2.0 that acknowledges ODH system receipt of the application submission.
- Q. Late Applications:** Applications are dated the time of actual submission via the Internet utilizing GMIS 2.0. Required attachments and/or forms sent electronically must be transmitted by the application due date. Required attachments and/or forms mailed that are non-Internet compatible must be postmarked or received on or before the application due date of **Monday, May 9, 2011.**

II. APPLICATION REQUIREMENTS AND FORMAT

Access to the on-line GMIS 2.0, will be provided after GMIS 2.0 training for those agencies requiring training. All others will receive access after submission of the Notice of Intent to Apply for Funding (NOIAF).

All applications must be submitted via GMIS 2.0. Submission of all parts of the grant application via the ODH's GMIS 2.0 system indicates acceptance of ODH GAPP. Submission of the Application signifies authorization by an agency official and constitutes electronic acknowledgment and acceptance of GAPP rules and regulations in lieu of an executed Signature Page document.

- A. Application Information:** Information on the applicant agency and its administrative staff must be accurately completed. This information will serve as the basis for necessary communication between the agency and the ODH.
- B. Budget:** Prior to completion of the budget section, please review page 8 of the RFP for unallowable costs.

Match or Applicant Share is not required by this program. Do not include match or Applicant Share in the budget and/or the Applicant Share column of the Budget Summary. Only the narrative may be used to identify additional funding information from other resources.

- 1. Primary Reason and Justification Pages:** Provide a detailed budget justification narrative that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs. Describe the specific functions of the personnel, consultants and collaborators. Explain and

justify equipment, travel, (including any plans for out-of-state travel), supplies and training costs. If you have joint costs refer to GAPP Chapter 100, Section 103 and the Compliance Section D (9) of the application for additional information.

2. **Personnel, Other Direct Costs, Equipment and Contracts):** Submit a budget with these sections and form(s) completed as necessary to support costs for the period July 1, 2011 to June 30, 2012.

Funds may be used to support personnel, their training, travel (see OBM Web site) <http://obm.ohio.gov/MiscPages/TravelRule> and supplies directly related to planning, organizing and conducting the Initiative/program activity described in this announcement.

Funds awarded under this sub-grant program may not be used to support total fringe benefit costs in excess of thirty-five percent.

When appropriate, retain all contracts on file. The contracts should not be sent to ODH. A completed "Confirmation of Contractual Agreement" (CCA) form must be submitted via GMIS 2.0 for each contract once it has been signed by both parties. The submitted CCA must be approved by ODH before contractual expenditures are authorized.

Submission of the "Confirmation of Contractual Agreement" (CCA) via the ODH's GMIS 2.0 system indicates acceptance of ODH GAPP. Clicking the "Approve" button signifies authorization of the submission by an agency official and constitutes electronic acknowledgement and acceptance of GAPP rules and regulations. CCAs cannot be submitted until after the 1st quarter grant payment has been issued.

Where appropriate, itemize all equipment (**minimum \$300 unit cost value**) to be purchased with grant funds in the Equipment Section.

3. **Compliance Section D:** Answer each question on this form as accurately as possible. Completion of the form ensures your agency's compliance with the administrative standards of ODH and federal grants.
4. **Funding, Cash Needs and Budget Summary Sections:** Enter information about the funding sources and forecasted cash needs for the program. Distribution should reflect the best estimate of need by quarter. Failure to complete and balance this section will cause delays in receipt of grant funds.

- C. **Assurances Certification:** Each subgrantee must submit the Assurances (Federal and State Assurances for Subgrantees) form. This form is submitted as a part of each application via GMIS 2.0. The Assurances Certification sets forth standards of

financial conduct relevant to receipt of grant funds and is provided for informational purposes. The listing is not all-inclusive and any omission of other statutes does not mean such statutes are not assimilated under this certification. Review the form and then press the “Complete” button. By submission of an application, the subgrantee agency agrees by electronic acknowledgment to the financial standards of conduct as stated therein.

D. Project Narrative:

1. **Executive Summary:** In a one page summary, identify the target population, services and programs to be offered and what agency or agencies will provide those services. Describe the public health problem(s) that the program will address.
2. **Description of Applicant Agency/Documentation of Eligibility/Personnel:** Briefly discuss the applicant agency's eligibility to apply. Summarize the agency's structure as it relates to this program and, as the lead agency, how it will manage the program.

Delineate all personnel who will be directly involved in program activities. Include the relationship between program staff members, staff members of the applicant agency, and other partners and agencies that will be working on this program. Include position descriptions for these staff.

Include data citations. The specific **health status concerns that the program intends to address may be stated in terms** of health status (e.g., morbidity and/or mortality) or health system (e.g., accessibility, availability, affordability, appropriateness of health services) indicators. The indicators should be measurable in order to serve as baseline data upon which the evaluation will be based. Clearly identify the target population.

Explicitly describe segments of the target population who experience a disproportionate burden of the local health status concern (this information must correlate with the Statement of Intent to Pursue Health Equity Strategies.)

Include a description of other agencies/organizations also addressing this

problem/need.

4. **Methodology:** Complete the Save our Sight Program Plan (Attachment 1), that identifies the program goals; *Specific, Measureable, Attainable, Realistic & Time-Phased (SMART)* process, impact, and outcome objectives and strategies/activities; evaluation measures; person(s) responsible; and start and completion dates for each. Indicate how they will be evaluated to determine the level of success of the program. A methodology narrative is not required.

Save Our Sight Children's Vision Health and Safety Education Program goals and objectives are listed in Appendix B. Other programmatic activities that fall within the scope of Section 3701.21 of the Ohio Revised Code may be considered for funding. Completion of programmatic activities is expected during the Program Period, July 1, 2011 through June 30, 2014.

Save Our Sight Children's Vision Health and Safety Education Program SFY 2012

Purpose, Goals, Objectives and Strategies

Purpose: The purpose of the Save Our Sight Children's Vision Health and Safety Education Program is to ensure that children in Ohio have good vision and healthy eyes by providing vision health and safety programs and materials for traditional and non-traditional classrooms. Eighty percent of what a child learns is learned visually. In Ohio, one in four school-aged children and one in twenty preschoolers have a vision problem. According to the 2008 Ohio Family Health Survey, vision is the number one unmet health care need of Ohioans under the age of 65. Funds for the Save Our Sight Program are generated by donations. Motor vehicle owners in Ohio are asked to donate \$1 to the Save Our Sight Fund when they register their vehicles and/or renew license plates.

Goal: The goal of the Save Our Sight Children's Vision Health and Safety Education Program is to ensure that children in Ohio have good vision and healthy eyes by providing funding to 501(c) organizations that offer vision services in all counties of the state to reach the objectives and strategies listed below. The goals and objectives are to be accomplished by engaging in focused and collaborative approaches to ensuring vision health and eye safety in children and aim to serve groups that are disproportionately affected by this health issue.

Complete the Save Our Sight Program Plan (Attachment 1) that identifies program objectives, strategies, activities, person(s) responsible, start and completion dates for each, desired impact/results and evaluation measures. Funding will be awarded based upon the extent that outcome-based measures are utilized to evaluate program impact. Each objective must be evaluated in order to determine the accomplishments, strengths and weaknesses of the intervention. Evaluation should be conducted at two levels: 1) process--that looks at tasks and procedures of the program (e.g., the number of children participating in a session or the number of kits sent to coaches) and 2) outcome-- that looks at results/changes in the target population from the program (e.g., the number of children with improved post-test results in comparison to a pre-test or the number of helmets used). ODH needs to approve evaluation methods prior to implementation.

Objective 1: By June 30, 2012, plan, develop and implement children's vision health and safety programs for traditional and non-traditional classroom settings using social marketing techniques to educate each targeted audiences about children's vision health and safety in all counties of the State.

Note: Development and funding of new kiosks will not be considered for the program period, July 1, 2011 – June 30, 2014. Funding will be awarded based on the extent that activities are provided directly to children.

1a Implement evidence-based curricula in traditional and non-traditional classroom-based sessions. Submit a copy of the evidence-based resources that will be used or submit a plan to demonstrate effectiveness of the curricula chosen. Provide evaluation report detailing effectiveness of program. For current kiosks and exhibits, submit copies of formative evaluation or any other type of evaluation used to demonstrate effectiveness with the grant application (due: July 30, 2011).

1b Include learning objectives within the application of vision health and safety programs.

1c Utilize the key points of the marketing mix components in children's vision health and safety programs: product (e.g., education program, implementing eye safety programs, vision screening, eye exams, program evaluation); price (e.g., cost: benefit analysis, time, effort, monetary cost, access, other barriers); place (e.g., the way the product reaches the target population); promotion (e.g., integrated methods of communication); and partners/policy (e.g., primary and secondary audiences, policy makers, gatekeepers, providers of care, referral sources). Refer to Appendix D.

1d Target the most economically vulnerable population (<200% Federal Poverty Level), minorities and other segments of the population that experience a disproportionate burden of vision health and safety concerns as the priority population. Describe segments of the target population who experience a disproportionate burden. Specify attainable number, or percentage, of population to be reached.

Objective 2: By June 30, 2012, ensure that children have good vision and healthy and safe eyes by increasing the proportion of children (select age range) who receive vision health or safety education by at least 20% for children statewide using SFY 2010 data as the baseline (available from ODH).

2a Report measurable outcome measures in addition to process measures for all vision health and safety programs quarterly using the Outcomes Grid (Appendix C) for the vision health and safety program curriculum. Submit the following data.

2a1 The number of locations receiving informational materials.

2a2 The actual number of children receiving programming (specify method of data collection).

2a3 Demonstrated increases in the knowledge gained as measured by the administration of pre- and post- tests. For classroom-based sessions, pre- and post-tests must be administered to each attendee and the results must be collected for each session. Qualitative surveys of faculty are acceptable but can only be used to supplement the pre- and post- tests.

2a4 Specify attainable number, or percentage, of segments of the target population who experience a disproportionate burden of the health status concern will be reached.
