

Miami County

Ohio Public Water System Fluoride Levels, 2012

<u>PWS ID</u>	<u>Water System</u>	<u>Population Served</u>	<u>Fluoridation Status</u>	<u>Fluoride Level</u>	<u>Purchase From ID</u>	<u>Purchase From Name</u>
OH5500012	Country Meadows Condo.	60	Natural	1.25		
OH5500112	Covington Village PWS	2,608	Deficient	0.28		
OH5500312	A And R Reck Mobile Home Park	55	Deficient	0.22		
OH5500412	Fletcher Village PWS	550	Natural	1.21		
OH5500612	Laura Village PWS	487	Natural	0.88		
OH5501211	Piqua City PWS	20,883	Adjusted			
OH5501312	Pleasant Hill Village PWS	1,134	Deficient	0.24		
OH5501412	Sunshine Mobile Home Park	178	Deficient	0.27		
OH5501612	Troy City PWS	22,000	Deficient	0.34		
OH5501711	West Milton Village PWS [^]	4,800	Adjusted		OH5501612	Troy City PWS
OH5501912	Paris Court MHP	70	Natural	1.26		
OH5502203	Miami Co-Deer Cliff Run PWS	590	Purchase		OH5553612	Nawa
OH5502303	Miami Co-N25A Extension	146	Deficient	0.00	OH5501612	Troy City PWS
OH5502503	Miami Co-Camp Troy PWS	3,523	Deficient	0.00	OH5501612	Troy City PWS
OH5502703	Bethel Township Water System PWS	327	Purchase		OH1201112	Clark County Park Layne PWS
OH5553612	Nawa	24,766	Adjusted			

[^] West Milton Village purchases from 5501612 (Troy City - Miami Co), which is deficient, but adjusts to optimum fluoride levels

Miami County

Ohio Public Water System Fluoride Levels, 2012

How to use this table:

Fluoridation Status: **Adjusted:** The natural fluoride level is adjusted to the optimum level for good dental health. [Click](#) for information about optimum fluoride levels.
Deficient: The natural fluoride level is below the optimum level for good dental health.
Natural: The fluoride level is naturally at optimum or higher levels.
Purchase: The water system purchases optimally fluoridated water from another public water system.

Fluoride Level: The fluoride level is provided for systems that do not adjust or purchase. Fluoride concentration is measured in parts per million (ppm) or milligrams per liter (mg/L).

Purchase From: The PWS ID indicated can be traced back to the original source of purchased water. The first two letters identify the state. The first two digits of the PWS ID identify the county in alphabetical order ([click](#) for a list of Ohio counties by code). The last five digits identify the system.

Please Note:

*Some water systems have fluoride levels tested at commercial labs that report levels of fluoride that are less than 0.5 ppm as "<0.5ppm." This is **NOT** specific enough for purposes of prescribing fluoride supplements. Health professionals should contact their local water plant in order to obtain more specific information on low fluoride levels.

**Public water systems comprise only a proportion of water systems that serve a county population. Some areas are served by non-community water systems.

The fluoride levels in the drinking water provided by public water systems which do not add supplemental fluoride are assumed to be the same as the natural fluoride content of the source water since typical water treatment or storage processes are not expected to remove fluoride.
