## Ohio Public Water System Fluoride Levels, 2012

<u>PWS ID</u>	<u>Water System</u>	<u>Population Served</u>	<u>Fluoridation Status</u>	<u>Fluoride Level</u>	<u>Purchase From ID</u>	<u>Purchase From Name</u>
OH7500012	Anna Village PWS	1,400	Natural	1.11		
OH7500112	Shelby County Water And Sewer PWS	370	Natural	1.35		
OH7500212	Botkins Village PWS	1,205	Natural	1.36		
OH7500312	Fort Loramie Village Of PWS	1,482	Natural	1.39		
OH7500412	Hidden Valley MHP PWS	120	Deficient	<0.20		
OH7500512	Jackson Center Village PWS	1,369	Deficient	0.72		
OH7500612	Kettlersville Well Association PWS	200	Natural	1.30		
OH7500712	Dorothy Love Retirement Center PWS	528	Natural	1.44		
OH7500812	Mccartyville Well Association PWS	190	Natural	1.50		
OH7500912	Northview Utility Corp PWS	85	Natural	1.62		
OH7501112	Fairhaven-Shelby Co Home	280	Deficient	<0.50		
OH7501214	Sidney City PWS	20,211	Adjusted			
OH7501312	Lake View Village MHP	60	Natural	1.55		
OH7501412	The Way International	410	Natural	1.79		
OH7501512	West Lake Village MHP PWS	85	Natural	1.62		
OH7541912	Russia PWS	580	Natural	1.37		

### How to use this table:

Fluoridation Status: **Adjusted:** The natural fluoride level is adjusted to the optimum level for good dental health. [Click](#) for information about optimum fluoride levels.  
**Deficient:** The natural fluoride level is below the optimum level for good dental health.  
**Natural:** The fluoride level is naturally at optimum or higher levels.  
**Purchase:** The water system purchases optimally fluoridated water from another public water system.

Fluoride Level: The fluoride level is provided for systems that do not adjust or purchase. Fluoride concentration is measured in parts per million (ppm) or milligrams per liter (mg/L).

Purchase From: The PWS ID indicated can be traced back to the original source of purchased water. The first two letters identify the state. The first two digits of the PWS ID identify the county in alphabetical order ([click](#) for a list of Ohio counties by code). The last five digits identify the system.

## Ohio Public Water System Fluoride Levels, 2012

**Please Note:**

\*Some water systems have fluoride levels tested at commercial labs that report levels of fluoride that are less than 0.5 ppm as "<0.5ppm." This is NOT specific enough for purposes of prescribing fluoride supplements. Health professionals should contact their local water plant in order to obtain more specific information on low fluoride levels.

\*\*Public water systems comprise only a proportion of water systems that serve a county population. Some areas are served by non-community water systems.

*The fluoride levels in the drinking water provided by public water systems which do not add supplemental fluoride are assumed to be the same as the natural fluoride content of the source water since typical water treatment or storage processes are not expected to remove fluoride.*
