

3701-34-08 Asbestos hazard abatement worker application contents, qualifications, standards of conduct.

- (A) To apply for certification as an asbestos hazard abatement worker, a person shall submit an application in accordance with rule 3701-34-03 of the Administrative Code. The application for an asbestos hazard abatement worker certificate shall include:
 - (1) Name, social security number, date of birth and mailing address of applicant;
 - (2) Employer's name and mailing address;
 - (3) Business and home telephone numbers;
 - (4) Name and location of asbestos training courses with attached copies of certificates;
 - (5) List of any asbestos licenses or certifications the applicant holds or has held in any other state; and
 - (6) Information regarding any felony convictions under any state or federal law designated to protect the environment.

- (B) To become certified and to maintain certification under this rule, an asbestos hazard abatement worker shall meet the following criteria:
 - (1) Submittal of a completed application on a form prescribed by the director;
 - (2) Payment of the fee required by rule 3701-34-03 of the Administrative Code;
 - (3) Satisfactory completion of a training course in the abatement of asbestos hazards, approved by the director pursuant to rule 3701-34-07 of the Administrative Code;
 - (4) A passing score of at least seventy per cent on an approved examination; and
 - (5) For renewal of certification, satisfactory completion of an annual renewal training course approved by the director pursuant to section 3710. of the Revised Code and rule 3701-34-07 of the Administrative Code.

- (C) An asbestos hazard abatement worker engaging in any asbestos hazard abatement project shall, during the course of the project:
 - (1) Perform each asbestos hazard abatement activity in compliance with the applicable procedures and methods established by regulations of the United States environmental protection agency, 40 C.F.R. Part 61, Subpart M (1990), and 40 C.F.R. Part 763, Subpart G (2000) and the United States occupational safety and health administration, 29 C.F.R. 1926.1101 (2000);
 - (2) Accurately, truthfully and competently perform and complete any asbestos hazard abatement activities and any other work performed by the asbestos hazard abatement worker in that capacity;
 - (3) Possess proof of valid certification, respirator fit test, and physician's written

opinion at all times at each project site;

- (4) Notify the director, in writing, within five business days of making any change which would render the information in the application for certification no longer accurate; and
- (5) Properly utilize protective clothing and protection equipment as described by the United States environmental protection agency in Subpart G of 40 C.F.R. 763 (2000), and the United States occupational safety and health administration in 29 C.F.R. 1926.1101 (2000).
