

3701-34-09 Asbestos hazard abatement project designer application content, qualifications, standards of conduct.

- (A) To apply for an asbestos hazard abatement project designer certificate, a person shall submit an application in accordance with rule 3701-34-03 of the Administrative Code. The application for an asbestos hazard abatement project designer certificate shall include:
 - (1) Name, social security number, date of birth and mailing address of applicant;
 - (2) Employer's name and mailing address;
 - (3) Business and home telephone number;
 - (4) Name and location of asbestos training courses with attached copies of certificates;
 - (5) List of any asbestos licenses or certificates the applicant holds or has held in any other state; and
 - (6) Information regarding any felony convictions under any state or federal law designated to protect the environment.

- (B) To become certified and to maintain a certificate under this rule, an asbestos hazard abatement project designer shall meet the following criteria:
 - (1) Submittal of a completed application on a form prescribed by the director;
 - (2) Payment of the fee required by rule 3701-34-03 of the Administrative Code;
 - (3) Provide documentation of satisfactory completion of a training course for asbestos hazard abatement project designers approved by the director pursuant to rule 3701-34-07 of the Administrative Code and of receiving a passing score of at least seventy per cent on an approved examination; and
 - (4) For renewal of certification, satisfactory completion of an annual refresher training course approved by the director pursuant to section 3710.10 of the Revised Code and rule 3701-34-07 of the Administrative Code.

- (C) An asbestos hazard abatement project designer engaged in the design of asbestos hazard abatement projects shall:
 - (1) Design each project in compliance with all procedures and methods established by regulations of the United States environmental protection agency, 40 C.F.R. Part 61, Subpart M (1990), and 40 C.F.R. Part 763, Subparts E (1987) and G (2000), and the occupational safety and health administration, 29 C.F.R. Part 1926.1101 (2000).
 - (2) Design each project in writing using one or more of the following methods:
 - (a) Descriptive, defining the properties of materials and methods to be used;
 - (b) Performance, specifying the required results;

- (c) Reference standard, requiring a process to be in accordance with established standard; or
 - (d) Proprietary, specifying an actual brand name and other proprietary information.
- (3) In addition to any information required by this rule, provide the following information in each project design:
- (a) Name and certification number of the project designer;
 - (b) Exact location of the project within the facility; and
 - (c) Quantities of asbestos containing materials to be abated.
- (4) Accurately, truthfully, and competently prepare all asbestos abatement specifications, plans, contract documents, and any other professional work performed by the asbestos hazard abatement project designer in that capacity;
- (5) Notify the director, in writing, within five business days of any change which would render the information in the application for certification no longer accurate; and
- (6) Possess proof of valid certification at all times while at a project site.
