

Physical design and facilities.

- (A) The PICU shall have controlled access with no through traffic.
- (B) The PICU shall be in close proximity to a family waiting area. Proximity to the physician on-call office is recommended. The PICU shall be available by gurney to the emergency department, the surgical area and recovery area.
- (C) The PICU shall contain the following distinct areas:
 - (1) Patient isolation rooms;
 - (2) A clean linen room;
 - (3) A soiled linen room;
 - (4) Equipment storage;
 - (5) Counseling;
 - (6) A medication station with drug refrigerator and locked narcotic cabinet;
 - (7) A nourishment station;
 - (8) Hand washing facilities;
 - (9) Staff and patient toilets; and
 - (10) Patient personal effects storage.
- (D) All patient rooms shall have:
 - (1) The capacity to provide patient privacy;
 - (2) Easy, rapid access to the head of the bed; and
 - (3) Adequate compressed air, oxygen, and vacuum outlets per bed.
- (E) The PICU shall have a rapid and reliable system that timely reports and receives laboratory results.
